BOARD OF TRADE ROOMS,

CHICAGO, *January 1, 1863.*

C. T. WHEELER, Esq.,

PRESIDENT OF BOARD OF TRADE:

*Sir.*—It once more becomes my duty to present to the Board the facts and figures showing the extent of the commercial transactions of Chicago, for the year just closed. It has been an eventful one. An immense amount of wealth has been added to her resources, both by legitimate profits on the year's transactions and the influx of capitalists from almost every part of the Northern and Western States. Men of talent, enterprise and wealth have been attracted hither to swell the ranks of the commercial and manufacturing pursuits.

The commercial history of the year just closed is one of more than ordinary interest. Circumstances of great and unusual importance, more or less foreseen for the last two years, have tended to influence prices and in various ways affect the channels of trade. While our city has thus been cut off from some of its commercial points, it is generally conceded that we are gainers by the internal troubles that afflict the country. While we are proud of our merchants, whose equal cannot be challenged from any city in the Union, the manner in which the Board of Trade, and the city generally, have met and answered all the demands of the Government, for men and money, during the last season, cannot but be regarded as conclusive evidence of their ability and standing as merchants and as men.

The work which follows and the aggregates of figures have been obtained at a vast deal of labor and expense, and what does not occupy a page in space has sometimes consumed whole weeks in preparation.

The elaborate character of the Report renders it unnecessary to speak in detail of it here. There are the figures. Those interested can read, reflect and draw their own conclusions as to causes and effects of increase or decrease in prices, or of the quality and quantity of this or that article of commercial traffic.

With these few words, I submit the following pages to your kind consideration, hoping they may prove satisfactory to yourself, to the Directors, to the Association of whom you are the guardians, and the public generally.

I remain, yours respectfully,

SETH CATLIN, SECRETARY.

# ANNUAL STATEMENT.

## STATEMENT

*Showing the Capacity of our Warehouses for Handling and Storing Grain.*

ELEVATING WAREHOUSES.	Capacity for Storage.	Capacity to re- ceive and ship per day.	Capacity to ship per day.

# GRADES OF GRAIN AND RULES OF INSPECTION

ADOPTED BY THE

BOARD OF TRADE OF THE CITY OF CHICAGO,

MAY 1, 1862.

---

## W H E A T .

No. 1 WHITE WINTER.—The berry to be plump, well cleaned, and free from other grains.

No. 2 WHITE WINTER.—To be sound, but not clean enough for No. 1.

No. 1 RED WINTER.—The berry to be plump, well cleaned, and free from other grains.

No. 2 RED WINTER.—To be sound, but not clean enough for No. 1.

REJECTED WINTER.—All unsound, unmerchantable wheat, and to weigh not less than 45 lbs. to the measured bushel.

EXTRA CLUB.—To be sound, well cleaned, and to consist of pure club wheat, weighing not less than sixty pounds to the measured bushel.

AMBER IOWA.—To be sound, well cleaned, and to comprise all kinds of bright amber color spring wheat, weighing not less than fifty-eight pounds to the measured bushel.

No. 1 SPRING.—The berry to be plump and well cleaned, weighing not less than fifty-eight pounds to the measured bushel.

No. 2 SPRING.—To be sound but not plump or clean enough for No. 1, weighing not less than fifty-five pounds to the measured bushel.

REJECTED SPRING.—Not sound or clean enough for No. 2, weighing not less than fifty pounds to the measured bushel.

## C O R N .

*Pure White, Pure Yellow, Mixed, Rejected and New.*

The following resolution in regard to the inspection of corn has been adopted:

That new corn be graded to correspond with grades of similar qualities arriving last year, and be termed New Mixed and New Rejected, and that the grade of Mixed and Rejected Corn be applied only to corn of crops previous to 1861, and that this new grade shall expire 1st of July next.

## O A T S .

No. 1.—To be clean and sound.

No. 2.—To be sound, but too dirty for No. 1.

REJECTED.—Unsound or very dirty.

## R Y E .

No. 1.—To be sound and well cleaned.

No. 2.—Too dirty for No. 1.

REJECTED.—Unsound or very dirty.

## B A R L E Y .

No. 1.—The berry to be plump, well cleaned and sound.

No. 2.—To be sound and clean.

REJECTED.—Unsound or very dirty.

Whenever wheat shall be so dirty, or have so much of other grain mixed with it as to render it, in the judgment of the inspector, not equal in value to the grade its weight would indicate, it shall be graded according to its value, regardless of weight. And all wheat or mixtures of wheat or other grain too poor in quality, either by reason of being damaged, dirty, or from mixing for grading as above, shall be marked as no grade, and would recommend that warehouses do not receive such grain.

At a meeting of the Board of Directors of the Chicago Board of Trade, the following recommendations were adopted as rules of the Board:

1st. That all grain arriving in bulk be inspected and received into the house for such grade only as the inspector shall decide, except when sold on the track for grinding, city consumption or shipment, and the inspector shall in no case make the grade above the lowest quality found in any lot of grain, when it has evidently been mixed or "doctored," with the view of changing the grade, and that our warehousemen be requested to refuse all bagged grain which shall have been bagged for this express purpose, and that all our railroad companies be requested to prohibit all bagging on their tracks, except for local consumption or shipment.

2d. That it be made the duty of all inspectors of grain to report to the inspection committee all attempts to defraud our inspection system. They shall report in writing every instance when warehousemen deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt. They shall also report any and every attempt of a receiver or shipper of grain improperly to instruct or in any way influence the action or opinion of the inspectors, and also all other attempts to defraud the inspection system, and when the charges shall be sustained, it shall be the duty of the inspection committee to put the same on the bulletin board of the exchange rooms.

3d. That an arrangement be made with all our warehousemen, by which a statement be furnished to the Board of every vessel loaded with grain, and the grade of the cargo. To make this effectual, that all elevators' and transfer vessels' reports be included.

4th. That all grain shipped from this port be inspected on board.

5th. That the practice of loaning grain by warehousemen is deemed improper, and should be discontinued, and that when charges are made to the Board of Directors that any warehouseman has improperly loaned grain, not his own, stored in his house, that the same be investigated by the Directors, and if such charge is sustained, the facts to be posted on the bulletin of the exchange.

The following resolution was also adopted:

*Resolved*, That it be the duty of the Chief Inspector to keep a record of the weight of grain inspected into and out of each warehouse, which record shall be open to the inspection of any member of the Board during business hours, and that he report daily to the Secretary, the average weight of the receipts and shipments of each grade into and out of each warehouse, which report shall be posted on the bulletin board.

**All advances or acceptances on property to be entirely subject to agreement between the parties.**

FLOUR.

The progress of the flour trade of Chicago during the year 1862 is fully set forth in the comparative tables of receipts and shipments that follow.

A large portion of the trade which has flourished for years in some of the cities and towns on the Mississippi and Ohio Rivers, has been attracted hither, and we now find offered daily on 'Change, samples of the choicest brands of Missouri and Southern Illinois white winter wheat extras, favorites of long standing in the New York, Boston and Philadelphia markets, and which, until within a very few years, were rarely seen, except in small quantities to supply the home trade.

The year closes with 48,788 barrels in store, being 21,802 barrels more than the year previous.

WHEAT.

By reference to the Tables that follow, it will be found that there is a material decrease in the receipts during the past year, as compared with 1861. This is mainly owing to the partial failure of the crop of Spring Wheat all through the Northwestern States, but more particularly to those sections of country tributary to Chicago; as is fully shown by a comparison of the supply since the first of September last with a corresponding period in 1861. Notwithstanding the decrease in the supply from some portions of the Northwest, it is gratifying to note that the Trade with Minnesota, Northern Iowa, and Northern Wisconsin, has increased greatly within the past year, and it is mainly from these sections of country that we draw that favorite grade of Spring wheat known as "Amber Iowa."

## CORN.

The unusually heavy crop of Corn raised in Illinois and Iowa during the years 1860 and 1861, rendered the extent of the corn trade of Chicago during the past two seasons a mere question of capacity to receive, store and ship.

During the past year, as will be seen by the Tables which follow, there is an increase in receipts, as compared with 1861, of 3,204,339 bushels.

The crop of 1862, in Illinois, and also in many parts of Iowa, is reported to be much lighter in yield than for two years past. The old crop, however, is by no means exhausted.

OATS.

The trade in Oats during the past year has been stimulated greatly by the demand to supply the armies of the West and South-West, and we therefore note an increase in the supply, as compared with that of 1861, of 2,621,704 bushels. Prices have also ruled higher than in former years.

## RYE.

The Receipts of Rye during the past year, as shown by the following tables, have more than doubled:

Receipts for 1862.....	1,038,825 Bushels.
Receipts for 1861.....	489,980 "
Increase.....	548,845

The demand for shipping East was never so great as during the past year, and prices have ruled higher than in 1861.

The crop of 1862 was a full average, both as to quality and quantity.

## PORK AND BEEF PACKING.

The progress which has been made in Pork Packing in Chicago during the past two years, is probably without a parallel in the history of any other city in the United States.

During the past year there have been erected along the River, seven large Pork and Beef houses, all of which have been constructed on the most approved plans. Besides these, there have been built a large number of smaller structures, of more or less permanence; all of which, with the temporary occupation of stores, out-houses, &c., give great additional facilities in the extension of this business. As the season is not yet closed, we can only judge of the packing for 1862-3, by the number cut from the commencement of the season, till January 1, which foots up 539,216, against 229,850, packed during the same period in 1861—an increase, thus far, of 309,366.

During the past two seasons, a large proportion of the Hogs cut have been made into English Middles, for the Liverpool and London markets. In the early part of this season, nearly every packing house in the city was engaged in this branch of the business. The favor with which Chicago brands have been received in the leading markets of England, warrants us in the belief that the trade will be one of permanence.

TABLE

*Showing the number of Hogs Received and Forwarded for five years.*

YEAR.	RECEIVED.			FORWARDED.		
	Live.	Dressed.	TOTAL.	Live.	Dressed.	TOTAL.
1858.....	416,225	124,261	540,486	159,181	82,832	192,013

## BEEF CATTLE.

The past year has shown but a small increase in the Cattle Trade of Chicago.

By the tables which follow, it will be seen that the receipts of Cattle at this point amount to 209,655 against 204,579, in 1861, an increase of 5,076 head; and the shipments to 112,745 against 124,146, in the same period of time. Showing a decrease of 11,401.
